**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In the Specification:**

On page 1, insert the following below the title of the invention as the first line:

-- This application is a 371 of PCT/EP04/02616 filed March 12, 2004. --

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The only remaining rejection in this application is a provisional obviousness-type double patenting rejection over copending application 10/568,367. MPEP § 804 provides that: If "provisional" ODP rejections in two applications are the only rejections remaining in those applications, the examiner should withdraw the ODP rejection in the earlier filed application thereby permitting that application to issue without need of a terminal disclaimer. A terminal disclaimer must be required in the later-filed application before the ODP rejection can be withdrawn and the application permitted to issue. The instant application is earlier filed than the reference application and there is a terminal disclaimer in the later filed reference application over the instant application. Therefore, as per the guidelines of the MPEP, the provisional obviousness-type double patenting rejection in the instant earlier filed application is hereby withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Conclusion**
